GENERATIONAL LOGISTICS AND CONSULTING LLC

FEDERAL LOGISTICS | PROPERTY ACCOUNTABILITY | OPERATIONAL SUPPORT

Company Overview

Colorado-based, owner-operated logistics and consulting company supporting government agencies and prime contractors with inventory accountability, logistics process documentation, quality controls and operational reporting.

Core Competencies

- Inventory reconciliation and discrepancy tracking
- Government property accountability process support
- Shipping, receiving and warehouse workflow reviews
- Quality control and corrective action tracking
- SOPs, work instructions and process maps
- Depot status reports, dashboards and exception tracking

Differentiators

- Owner-led, defined-scope project delivery
- Defense logistics and property accountability experience
- Process-driven reporting and audit-readiness focus

Relevant Experience

The owner has professional experience in defense logistics, property accountability workflows, warehouse operations and logistics documentation. Individual professional experience is distinct from corporate contract past performance.
